Patrick Rowan, the young man who was arrested on the charge of being responsible for the death of James Eagan, had a hearing before Justice Motiska in Duryea on Saturday, and after the justice had listened to the testimony the prisoner was discharged, as it was proven beyond a doubt that the unfortunate affair was the result of an accident, which occurred when the two young men were examining a gun. The charge which entered Eagan's body was the contents of a blank cartridge, and at the post mortem, held by Dr. Baker, nothing was found in the wound but the wad usually placed in the cartridge. The actual cause of his death was lockjaw.

Some time at an early hour yesterday morning, a burglar, who seemingly is well versed in his nefarious business, with the aid of a diamond, made an oval circle in the corner of a large plate glass window of Hoffman's shoe store on North Main street, and pushing his hand in picked out the most valuable pair of shoes that could be reached through the small opening. In his haste he had thrust his hand against the jagged edge of the glass, for when the burglary was discovered, quite a quantity of blood was seen on the stone coping and sidewalk under the window. The greatest loss is the destruction of the window. No arrests.
